回歸東方地面美學
THE RENAISSANCE OF ORIENTAL FLOOR AESTHETICS

# UNIJOY
# 回歸東方地面美學
## THE RENAISSANCE OF ORIENTAL FLOOR AESTHETICS

### 關於回歸
### ABOUT RENAISSANCE

「回歸」二字是我們對東方文化和美學的一種信仰。在這個理念的指引下，我們設計了三個主題係列：「靜」、「慢」、「雅」。

「Renaissance」is our belief in oriental culture and aesthetics. Guided by this concept, we designed three themes:
「Tranquility」,「Slowdown」, and「Elegance」.

「雅系列·和而不同」 ——雅系列以傳統梅蘭竹菊（四君子）紋样爲啓發，正如孔子所言：“君子和而不同，小人同而不和。”我們將詮釋如何將此係列完美融入不同時代風格下的東方室內設計中。

「Elegance: harmony in diversity」- The Elegance Series is inspired by the traditional patterns of plum blossom, orchid, bamboo and chrysanthemum (Four men of virtue). As Confucius said "A man of virtue gets along with others, but does not necessarily agree with them; a man of meanness agrees, but he does not harmonize.” We will demonstrate how to perfectly integrate this series into oriental interior design in different period styles.

無論是傳統中式、西式古典、亦或是新中式風格，雅系列產品都能爲空間增添獨特的韻味與藝術氣息。

Whether it is traditional Chinese, Western classical, or Neo-Chinese style, The Elegance Series can add unique charm and artistic atmosphere to the space.

傳統與現代的碰撞，東方與西方的交融，在「雅系列·和而不同」的設計中找到百搭的東方韻味，創造出讓人驚豔的室內空間。

When tradition and modern collide, the East and West fuses and produces interesting results. May you find the wild - card element in oriental charm from「Elegance: harmony in diversity」to create interior design marvels.

## 大尺寸軟底
## LARGE-SIZED CUSHION

回歸東方地面美學全系列尺寸為50 cm × 100 cm大尺寸軟底方塊地毯,鋪設效果有別於普通工藝方塊地毯,更凸顯空間的整體感,圖案更大氣,質感更高端。
The whole series of "The renaissance of oriental floor aesthetics" is 50 cm × 100 cm cushion back tile carpets. Distinguished from normal-sized counterparts, this highlights a holistic sense and stands out the amazing pattern and premium quality all the more.

## 仿手工簇絨
## TAPESTRY TECHNOLOGY

該系列由三個設計故事組成,毯面工藝均使用仿手工多色提花簇絨技術製成。使用該工藝製成的地毯絨頭飽滿度及觸感較一般工藝更好,附加軟底背後整體厚度可達10mm以上,腳感、吸音降噪功能較普通簇絨工藝地毯有很大的提高。該工藝下製作圖案紋理幾乎沒有限制,可避免出現普通簇絨常見的條線狀感。且因為高克重,耐用性和阻燃性能較普通簇絨工藝更好。
This series consists of three design stories and the surface was applied with brilliant Tapestry Technology. Carpet tufts made by this technique have no parallel in terms of fullness and touch. The overall thickness of the additional soft backing can be more than 10 mm, which greatly improves the foot feel and the performance of sound-absorbing and noise-reducing. There is almost no limitation on patterns under this technique and can avoid the stripe-like phenomenon which often occurring on orthodox-made carpets. Furthermore, because of the high fabric weight, the durability and flame-retardant properties are just superb.

## 段染紗線
## SPACE-DYED YARN

該係列采用獨特染紗工藝製成的段染紗線生產,大大增加了設計感和被仿製的難度。同一根紗線上有三至六種不同的顏色,搭配多色提花技術,使毯面在二維平面上呈現了豐富的顏色層次和隨機變化,凸顯出立體感和高級感。
Space-dyed yarn refers to a yarn with three to six different colors. The utilization of space-dyed yarn enriches the sense of design and greatly increase the difficulty of imitation. Combined with tapestry technology, the carpets present rich colors and random variation, highlighting the 3D effect and aesthetic sense.

## 環保中間層
## ECO-FRIENDLY MIDDLE LAYER

中間層採用DINCH為增塑劑生產的PVC,具有無毒安全、環保性高、耐低溫性優、無霉菌/真菌生長、加工性能好、使用壽命長等特點。DINCH專為人體接觸應用而開發,可能是當今市場歷經最縝密測試的增塑劑,由於其卓越的毒性測試表現,得到了全球眾多權威機構的核准與認證(REACH、FDA、NSF)。將確保其在食品包裝、玩具、醫療、飲用水等應用領域的產品符合歐洲、美國和亞洲各地對於增塑劑使用的嚴格要求。
The middle layer is produced by the use of DINCH. DINCH has the characteristics of non-toxic safety, high environmental protection, excellent low temperature resistance, no mold / fungal growth, good processing performance and long service life. DINCH is specially developed for human contact and may be the most stringently tested plasticizer on the market today. On account of its excellent toxicity test results, DINCH has been approved and certified by many prominent institutions around the world (REACH, FDA, NSF). DINCH meets the most rigorous requirements for plasticizers used in food packaging, toys, medical, drinking water and other application fields in Europe, USA and Asia.

## 環保軟底背
## ECO-FRIENDLY CUSHION BACK

該係列所有的底背是通過回收使用過的塑料水瓶,每平方米產品平均使用22個回收可樂瓶,利用創新的生產技術將其製成柔軟而堅固的PET毛氈材料,經久耐用,並具有出色的聲學性能。且PET毛氈既可回收又可再生。
All cushion backs are made from recycled plastic water bottles. An average of 22 recycled Coke bottles are used per square meter. Innovative procedures are introduced to turn them into soft yet strong PET felt materials with outstanding durability and sound absorption performance. The PET felt is both recyclable and renewable.
